

## Quality Policy

Version 3 – May 2020

Cambridge Energy Partners, and its subsidiary Nomad Energy, SL are committed to delivering the highest possible quality to their customers. We take the quality of our product seriously and believe our users should enjoy the benefits of solar energy over the entire useful life of the asset.

To enable us to do this, we have implemented a quality management system that emphasizes best practices and continuous improvement. Based on the UNE-EN ISO 9001:2015 and UNE-EN-ISO 14001:2015 standards we, via our manufacturing subsidiary Nomad Trackers, commit to the following principles:

- We ensure that our products comply with applicable specifications, standards and codes, as well as applicable laws and regulations regarding our product and our environmental impact.
- We maintain a commitment to continuous improvement of our product and processes, as well as environmental protection through quality and environmental planning.
- We believe customer satisfaction is paramount, and our commitment to quality and the environment is at the heart of this effort.
- We promote open communication with our stakeholders, to help us improve our products and services.
- We train and motivate our staff to promote our quality management principles.
- We emphasize commitment to quality, respect for the environment, and commitment to safety in all our activities.
- We provide the organization with the means required for quality and environmental compliance and risk and contamination prevention related to all aspects of our activity.

We are more than happy to discuss our policies, and can be contacted at [info@cambridge-ep.com](mailto:info@cambridge-ep.com) if you wish to learn more.

Sincerely,

Tom Miller – CEO
